

WASHINGTON STATE CERTIFIED BACKFLOW ASSEMBLY TESTERS

Pursuant to the Washington State Department of Health Requirements to protect the public health and safety, the Lake Chelan Reclamation District (LCRD) shall require all customers receiving potable water from the LCRD's water distribution system to comply with all state and local regulations requiring approved backflow assembly devices. In accordance with these regulations to protect the LCRD's water system and public health and safety, these approved devices shall be installed, maintained and **tested annually** by an approved and licensed Backflow Assembly Tester at the customer's expense and liability.

The customer is responsible for the investigation of the qualifications of the individual backflow assembly testers listed and for entering into any testing and inspection agreement in order to comply with the Districts cross connection control regulations.

All test results should be emailed to BACKFLOW@LCRD.ORG

The District takes no position in regard to recommendation or endorsement of those listed.
